

I travel every weekend five hours to see my family. I listen to XM radio 95% of the time that I am in my vehicle. Having XM radio provides me with the comfort of traffic, weather, comedy, news, music, and information that I would be unable to access via AM or FM. I urge you to reject the NAB's petition 04-160. Please continue to support XM's ability to provide the kind of programming that makes my life more enjoyable.
